What are the benefits of wearing crystals?

Holding crystals or placing them on your body is thought to promote physical, emotional and spiritual healing. Crystals supposedly do this by positively interacting with your body's energy field, or chakra. While some crystals are said to alleviate stress, others purportedly improve concentration or creativity

What are the benefits of crystal water bottles?

By placing a crystal stone in a bottle, it gives back its accumulated energy into the water you drink. Hydration and Healing Energy - that's the combo we like! Each crystal has a unique power: some lower the levels of stress, some improve creativity, others are good in balancing emotions, and so on.

Do crystal water bottles really work?

When it comes to the science, there are likely no measurable benefits to using crystal-infused water bottles. According to Jerry Bailey, functional medicine practitioner at Lakeside Holistic Health, there's no evidence to suggest that crystal-infused water bottles have any real effect on what you're drinking.
